## PROFESSIONAL EXPERIENCE

---

**Sitedocs, Remote**

Nov 2019 – Present

**Frontend Software Architect**

- Built a SPA from scratch that enables product users to chat between themselves with features like slack using React, Redux, and WebSockets which increased user engagement by 15%.
- Built a monitor dashboard project, where product users can view the results and monitor them easily by using various kinds of filters and selections with Followed documentation to always remain up-to-speed on what needs to be updated in response to new release versions.
- Re-wrote 20+ old Angular server rendering pages into React pages with a new UI design, resulting in a 10% increase in page load speeds.
- Successfully Introduced the new storybook design system across 5+ web applications, which reduced development time for new features by 50% due to building reusable components.
- Implemented code-splitting, lazy loading, and Composed high-performance views using memoization, resulting in a 10x increase in rendering speed.

**Zemoso Technologies, Hyderabad, IN**

Jul 2017 – Nov 2019

**Principal Software Engineer** (Jan 2019 – Nov 2019)

- Created an interactive user interface that annotates borescopes and gauges images with findings to the user which increased usability by 25%.
- Improved linter rules to enforce code quality standards which cut down on bug fixes by 15%.
- Achieved 100% unit test coverage on all new features and bug fixes, ensuring high-quality code.

**Senior Software Engineer** (Jul 2017 – Dec 2018)

- Developed a Doctor and Patient video communication platform by integrating Moxtra SDK into the app that was used by over 10,000 doctors and patients.
- Developed an Amazon Lex chatbot to answer common questions from patients, reducing the number of support calls by 20%.

**Ananth Technologies, Hyderabad, IN**

Dec 2015 – Jun 2017

**Software Engineer**

- Successfully implemented a new user interface design for the hotel inventory management system with an intelligent algorithm to auto-adjust inventory to maximize bookings by 5%.
- Introduced a Grafana analytic dashboard used to monitor bookings, check-ins, checkouts, and other key performance indicators in real-time.

**Coforge, Hyderabad, IN**

Aug 2013 – Nov 2015

**Software Engineer**

- Extensively explored the Akana framework API to get a complete understanding of the Back end operations being performed.

## EDUCATION

---

**Indian Institute of Technology, Guwahati, India**

Bachelor of Technology

May 2013
